

Activate custom music on hold for your RCA Unison U1000 base station phone.

Follow the steps below to activate customized music on hold playback for your RCA Unison U1000 Base Station phone.

You'll need the music on hold player provided by OnHold.com.

From the RCA Unison U1000 Base Station phone:

1. Plug the provided auxiliary cord into the back of the music on hold device (600 Ω jack), and the other end into the telephone headset port.
2. Press the **Menu** softkey while in idle mode.
3. Using the directional pad, move the indicator to **Music On Hold**. Press the **Select** softkey.
4. Move the indicator to **M.O.H. Source** and press the **Select** softkey.
5. Select **Auxiliary In** and press the **Select** softkey. Your custom audio will be heard by all held calls on the system via the music on hold player.

Press MENU/SELECT or /SKIP to select a highlighted M.O.H. source and return to the previous menu.

You're ready to play your OnHold.com customized music on hold messaging to every caller on your RCA Unison U1000 Base Station phone!
